

Oxide-Mixed Potential: South BlackSheep (Soil Geochem)

Based on Soil Geochemistry and Integra, Historic Drilling:

- Milestone: IMS-20-015: 1.43 g/t AuEq / 78.94 m
- Dido/Slaughterhouse Gulch: ST-14: 0.41 g/t AuEq / 24.38 m¹
- Lucky Days: LDE-21-002: 0.71 g/t AuEq / 36.73 m

1. Historical drill holes. These historical drill holes are relevant for historical context and are not being included current mineral resources or mineral reserves. Gold equivalent = g Au/t + (g Ag/t / 77.70)
