

# Florida Mountain Geochemical Anomaly

**Florida Mountain Resource:**<sup>1</sup>  
 M&I: 52.74 Mt @ 0.62 g/t AuEq, 1.07 M ozs  
 Inferred: 6.98 Mt @ 0.44 g/t AuEq, 100,000 ozs

1. Please reference the NI 43-101 Technical Report and Preliminary Economic Assessment for the DeLamar and Florida Mountain Gold-Silver Project, Owyhee County, Idaho, USA for more information on the Resource Estimate.

2. The historic drill data reported in this release was developed by previous operators of the Florida Mountain Deposit prior to the introduction of NI-43-101. Historic drill intersections are reported as drilled thicknesses. True widths of the mineralized intervals are estimated to be less than 75% of the reported widths. The historic drill data was sourced from Kinross/Nerco DeLamar Mine exploration and production data and reports. Integra Resources is providing this historic data for informational purposes only and gives no assurance as to its reliability or relevance. Integra Resources has not completed any quality assurance program or applied quality control measures to the historic data. Accordingly, the historic data should not be relied upon.
