

A - Schematic Long Section of the Wildcat Deposit

B - Schematic Long Section of the Wildcat Deposit with Magnetic Geophysics

C - Schematic Long Section of the Wildcat Deposit with Chargeability Geophysics

Legend

- Cretaceous granodiorite
- Tertiary lapilli tuff breccia (primary ore host-rock)
- Potential hydrothermal vent breccia
- Breccia Pipe Target
- Tertiary rhyolite
- Tertiary basalt
- Average depth of drilling
- Sulfide pit outline
- Oxide pit outline
- Potential gold mineralization on the margins of the interpreted diatreme breccia pipe
- Faults (dashed - inferred)
